.

WHY PLACEMENT TRAININGS ARE IMPORTANT?

Why is Placement training important: Placement training plays a major role in shaping up the career goals of students. It is the dream of every engineering student to get placed in a top organization visiting their campus for recruitment. Keeping this key aspect into consideration, it is realized that training is important for engineering the students to enhance their employability skills and achieve good placement in various Industries.

At present, the competition for employment is increasing every day and placement has become a challenging task. Training students and equipping them with life skills has become an important responsibility of the institution. Along with technical expertise, the development of a holistic personality is also necessary.

Objectives and Training Activities by QG(Quient Group):
The prime objective of the Training Cell is
● To look for 100% employment for all students.
● To recognize the core competencies of the students.
● To train the students to meet the expectations of the industry through our Career
   Development Programmes.
● To build confidence in students and develop the right attitude in them and
● enhance their communication skills.

Training Activities :
● Create awareness about "career planning" and "career mapping" among the students.
● Equip the student with life skills.
● Train the students on "Personality development".
● Organize Various Training Programmes to train the students in the areas
   of Quantitative Aptitude, Verbal Ability, Logical Reasoning.
● Train the students through Mock Interviews to perform well in the professional
   interviews as per   the expectations of the corporate world.
● Train the students on group discussion techniques.
● Conduct online tests and written aptitude tests.
